

Eska Graphic Board introduces Eskablack, a premium black dyed solid board product which is available in calipers from 1.00 up to and including 3.00 mm.

Applications

Eskablack is used in products with one or two black sides and/or products showing the inner black board at the cutting edge, e.g.

- premium packaging for cosmetics and jewellery
- premium packaging for whisky, cognac, champagne, wine, port, etc.
- gift boxes
- picture frames
- puzzles and games
- point-of-sale
- stationery products
- books

Quality features

- lay flat, stay flat
- high rigidity
- optimal runability
- easy to die cut, rotary cut, crease, score and drill

Sizes

- large sheets* are available in any size from 500 x 500 mm to 1200 x 1600 mm; larger sizes on request
- rotary cut sizes are available in any size from 100 x 150 mm to 480 x 1370 mm
- die cut sizes and shapes on request

*Deckle fill restrictions may apply to large sheet sizes

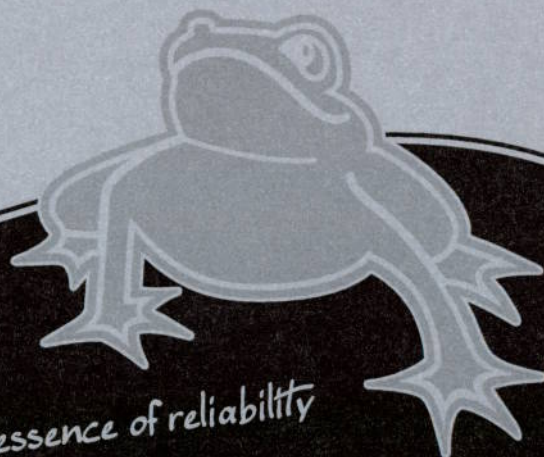

Product range Eskablack

Eskablack is available in four varieties:

- **Eskablack unlined** one-layer board made from 100% recycled fibres, available in 1.00 mm
- **Eskablack** three-layer board made from 100% recycled fibres, available in calipers from 1.75 - 3.00 mm
- **Eskablack Xtra** three-layer board consisting of an inner layer made from 100% recycled fibres with deep black and glossed liners on both sides; recycled fibre content at least 70%, available in calipers from 1.25 - 1.75 mm
- **Eskablack Xtra 1s** three-layer board consisting of an inner layer made from 100% recycled fibres, a deep black and glossed liner on one side and a liner made from 100% recycled fibres on the other side; recycled fibre content at least 85%, available in calipers from 1.50 - 2.40 mm

Order quantity and delivery time

- 4-weekly production cycle
- Minimum order quantity: 3 tonnes per caliper-product variety
