## **Press release**

Sappemeer, 4 April 2008

### **FSC certificate has been awarded to Eska Graphic Board products**

**After thorough preparation and research the FSC certificate has been granted to Eskaboard, Eskapuzzle, Eskamono and Eskaduo. This makes Eska Graphic Board the first graphic board producer who has acquired the FSC certificate for recycled board products.**

#### **Growing need**

With the FSC certificate Eska Graphic Board anticipates a growing need of customers, who increasingly require FSC certified raw materials in order to be able to supply FSC certified products to the market. From now, with the use of Eska board products, graphic board is no longer a bottleneck for the production of FSC certified end products.

#### **Categories FSC-recycled and FSC-mixed**

Eskaboard and Eskapuzzle, which consist of recycled fibres only, have received the FSC-recycled certificate. Eskamono and Eskaduo, with an inner layer consisting of recycled fibres, have received the FSC-mixed certificate.

#### **Eska Graphic Board**

Graphic Board is a leading producer and specialist supplier of graphic board, distributed on a worldwide basis. From 100% recovered paper Eska Graphic Board produces more than 250,000 tonnes of graphic board in two mills in the Northern part of The Netherlands. The board is marketed under the brandnames Eskaboard, Eskapuzzle, Eskamono and Eskaduo which stand for top quality graphic board that is especially developed for hardcover books, lever arch files, ringbinders, albums, diaries, gameboards, puzzles, displays, showcards and luxury packaging.
